

Get the Boost you need to win!

There are numerous probiotic pastes on the market, but there is only one that the Champion performers count on for peak performance. Equine Oxy-Boost Plus!™ is a gelatinized probiotic paste designed specifically for horses. Just one 10cc application contains electrolytes, lactobacillus, and other probiotics, as well as a special flavoring agent your horse will love. Plus, it also contains what the others don't- the original Oxy-Gen® formula, the winning edge Champion performers have counted on for years!

The Oxy-Gen® formula in Equine Oxy-Boost Plus!™ will give your horse a boost of power for competition, and cut recovery time after your run. Equine Oxy-Boost Plus!™ gives you extra performance when you need it most. Excellent for use during training, exercise, or competition, or when your horse is under stress, such as hauling or new water, and is especially good for young stock and dehydrated animals. Use one to two hours before peak performance is desired.

Terri Kaye Kirkland, 3 Time NFR Qualifier
and 2006 Reno Pro Tour Champion

EQUINE OXY-BOOST Plus!

Containing the original  OXY-GEN® formula
