

# Don't let ulcers hold you back!

There are numerous probiotic pastes on the market, but there is only one that the Champion riders count on for peak performance, the original Equine Oxy-Boost Plus!™ And now, we have raised the bar even higher with the introduction of JailBreak GI™, a gelatinized paste designed specifically to help balance the pH of your horse's digestive system while boosting performance. Just one 20cc application contains electrolytes, lactobacillus, and other probiotics, as well as a special flavoring agent your horse will love. Plus, JailBreak GI™ also contains what other pastes do not- the original Oxy-Gen® formula, the winning edge the Champion performers have counted on for years!

The Oxy-Gen® formula in JailBreak GI™ will give your horse a boost of power for competition and cut recovery time after your run. Your horse will exhibit greater stamina and power, and will fire when you begin your run. Our exclusive GI formula will help ease gastric distress and settle your horse before your run, helping it feel its best before you compete. JailBreak GI™ serves as a non-invasive test for equine ulcers and other gastro-intestinal issues. JailBreak GI™ is excellent for use during training, exercise, or competition, or when your horse is under stress, such as hauling or new water, and is especially good for young stock and dehydrated animals. And like all Oxy-Gen® products, JailBreak GI™ is safe, natural, and drug-free.

Dr. Jack McEwen, Ph.D.  
Creator of Oxy-Gen®

**"If your horse eats better and performs better after using JailBreak GI, there is a strong possibility that your horse has ulcers or a pre-ulcerous condition. Oxy-Gen products that contain our GI formula like JailBreak GI and Oxy-Gen Extreme GI Care were developed specifically to balance stomach pH and create the proper environment for optimum nutrient absorption, and to help your horse heal gastro-intestinal issues naturally and without drugs. If you have questions, please stop by our booth and talk with our highly qualified staff, or please feel free to call me personally at (800) 799-9981."**

*Dr. Jack*
