

Xtreme performance, now enhanced!

Competitive horses take a beating every time they train or compete. The demands of competition take a heavy toll on your horse's joints, muscles, bones, and respiratory system. Maintaining these systems is vital to both your horse's health and to your chances of winning.

The answer is Oxy-Gen Xtreme Pro-B™. Formulated specifically for equine athletes, it is the only supplement on the market that combines the the original Oxy-Gen® formula developed by Dr. Jack McEowen, Ph.D. with MSM and glucosamine to assist in healing damage and promote superior joint health. It also contains our exclusive Pro-B formula that aids digestion, helps reduce stress, and improves feed utilization. Oxy-Gen® products are found in the barns of world class competitors like Mary Burger, C.R. Bradley, Terra Bynum, Terri Kaye Kirkland, and hundreds of winners in every discipline from English to Western.

Mary Burger rides AQHA Barrel Horse of the Year "Rare Fred" to victory in the 2006 WPRA World Championship!

Oxy-Gen Xtreme Pro-B™ is also great for companion horses, too, especially middle-aged horses experiencing joint issues like spurs and arthritis. Whether you are a top competitor or a weekend pleasure rider, every horse will benefit from the original Oxy-Gen® formula. To get Xtreme results, you need Oxy-Gen Xtreme Pro-B™!

Guaranteed Analysis:

Crude Protein, min	16.0%
Methionine, min	0.1%
Crude Fat, min	2.0%
Crude Fiber, max	4.0%
Calcium, min	0.1%
Calcium, max	0.3%
