

We have been fortunate to know so many families involved in Junior Livestock and to have them as friends. Everything else has always just been icing on the cake. This year we seem to have skipped the meal and gone directly to dessert.

We have worked with thousands of exhibitors that competed with their projects and worked to develop important life skills. Many of them have not only reached their goals, but exceeded them. Customers like:

* Claire McCormick had both the Grand and Reserve Grand Champion Barrows at the NJSA Pig Show

* Price Ruffin ended up winning over 25 Breed Champions this year showing his lambs

* Mary Burger won the 2006 WPRA World Championship in Barrel Racing riding "Rare Fred", the AQHA Horse of the Year

* Montana Afton "Tandy", owned by Penny Hudgens, was named the IBRA Horse of the Year.

* Jennifer Smith showed the Supreme Champion Heifer at the San Antonio Stock Show and Rodeo

* Cassie Johnson of Solution Genetics fed and showed only the third "Triple Crown" winner in Red Angus breed history, winning Louisville, Denver, and Fort Worth.

The list goes on and on. And when you look at the unmatched success that our customers enjoyed in show goats, this year was something special. Yet while we think of the ride it has been, we remember our friends and how their lives have changed because of everything they experienced as a result of showing livestock. More important to us is that the kids have handled their success with style, grace, and respect. We applaud them and their parents.

We never set out to accomplish this, yet we did. It was through the hard work and dedication of our customers that we were able to achieve this feat. Our promise to you is that we will continue to work just as diligently in the future so that more of you can enjoy these successes.

Congratulations to each of you in your accomplishments, both in and out of the Show Ring. Thank you for the memories that we will always cherish. All of us at Oxy-Gen want to wish you continued success and thank you for your business.
