

This is Sum Pig!™

Containing the original  OXY-GEN® formula

The Majors are coming up fast- are your pigs really ready to show against the best in the country? If you aren't sure, then you need Sum Pig™. Sum Pig™ is the first swine supplement designed with our exclusive CircQlate™ technology that speed nutrients and the original Oxy-Gen® formula to every cell of your animal's body. The result is faster gains, better appetite, superior muscling, improved breathing, and increased vigor and bloom. Sum Pig™ is safe, natural, and drug free, and best of all, it comes from the people at Oxy-Gen®, the name the Champions have trusted for years.

Does it work? We introduced Sum Pig™ less than 3 months ago, and it is already delivering some really impressive wins. Here's Claire McCormick of Fredricksburg, Texas, who took the Reserve Champion Barrow at the National Barrow Show, and **BOTH** Grand **AND** Reserve Champion at the National Junior Swine Association Show! If you are serious about winning this season, you need Sum Pig™!
