

While the competition imitates, OXY-GEN[®] INNOVATES!

Oxy-Gen[®] has been the leader in the supplement industry for years, and the secret to our success is really no secret at all. While our competition is selling the same old knock-off products that become more and more obsolete with every innovation we make, Oxy-Gen[®] has built on our great success by offering a wide array of products to suit the varying needs of individual show people in every species. This commitment to innovation has led to groundbreaking products like CircQlate[™], Femininity[™], Sum Pig[™], and Crusade[™]. And we have improved our flagship products like Xcalibur[™] and Grand Goat[™] with our exclusive CircQlate[™] technology, plus our Depot[™] formula that naturally tightens the hides of your lambs and goats. It is this constant commitment to improve our products that drives our success, and our results speak for themselves. Oxy-Gen[®] fed more Champions at every major show last year than any other company.

You should find out what the Champions already know. Call us today TOLL-FREE and ask us how Oxy-Gen[®] products can help you build better show animals.

"We want to wish all our customers the best of luck at the Fall Classic. We know how hard you work on your show project, and we promise to work just as hard to continue developing superior products to make your animals the very best they can be. We are only successful because our customers are successful."
